University of Sargodha

2015-2020

### PROFILE

I am an experienced Front-End Developer proficient in HTML5, CSS, JavaScript, and Tailwind CSS. My expertise extends to React.js, Next.js, and Angular, where I specialize in crafting dynamic web applications and integrating APIs. I am dedicated to creating user-friendly digital experiences through my skills and knowledge in front-end development.

### WORK EXPERIENCE

#### Front End developer

Zam Software House

12/2024-present

- Developed the Intercloud 9 SMS system in React.js, fully designed with Metronic integration and utilizing Redux Toolkit for state management. Integrated Laravel backend, creating APIs and implementing user authentication with Laravel Passport for seamless integration with the React frontend.
- Contributed to other projects like Profit Coach, emphasizing backend development and API integration to ensure cohesive functionality across platforms.

Capital Smart City

08/2023-12/2023

- Proficient in Angular, executing seamless API integrations for enhanced CRUD operations and application functionality.
- Expert in UI Development, creating secure, intuitive interfaces with authentication and Bootstrap, and integrating the Metronic theme for improved visual appeal and cohesive user experience.

Property051

04/2021-08/2023

- Designed visually appealing, user-friendly interfaces for the Property 051 platform and other projects like Pin92, LMS, Bahria Housingcom, and KSAVision2030, showcasing expertise in crafting engaging digital experiences and strong project management abilities.
- Collaborated seamlessly with cross-functional teams to ensure smooth communication and coordination, leading to successful project outcomes.

### Our Projects

Property051 , lms , KSAVision2023

- Developed visually appealing user interfaces for Property051 and LMS using HTML5, CSS, and Bootstrap, ensuring engaging digital experiences, and integrated front-end designs seamlessly with Laravel backend for efficient data management and optimal user interactions.
- Collaborated cross-functionally to achieve responsive designs and seamless user experiences across platforms.

Bahria Houing, Pin92 , WeatherApp , CraftConnect, QurranNoor

- Integrated APIs with React and Redux Toolkit for projects like Bahria Housing, Pin92 Weather App, Quranoor and CraftConnect, enhancing data accessibility and user interactions.
- Developed property management functionalities for Bahria Housing using React and Material-UI components.
